20th Annual Bull Sale

MARCH 16, 2024 AT 1:00 PM
NORTHERN LIVESTOCK SALES
LLOYDMINSTER SK

Hello Fellow Cattlemen & Cattlewomen. Welcome to my 20th annual bull sale. Bull sale season. It's the most wonderful time of the year. Right up there with calving season. A very special thank you to all my past bidders and loyal buyers. Without your support this would not be real. Thank you. All bulls will be tested for non dilutor by sale day. Vitamin AD and Selon-E at birth, Bovi shield gold and ultrabac 7 at branding and weaning. Ivomec as needed. Its rewarding to hear how the bulls worked for customers. Also rewarding to see how the RUK tatoo has worked in purebred herds. As you go through sale catalogs and see RUK in different herds. It keeps one grounded. The pictures of this group were taken the last week of November. So they look a lot better now. This is a very good group of bulls. Stop in and view the bulls ad there moms. If you can not make it to the sale, DLMS is available. Or ask any of the knowledgeable people in front of catalog. Thank you to my buyers. All the best in 2024 and a successful breeding season.

Kulyk Simmentals

CANADIAN SIMMENTAL ASSOCIATION BREED AVERAGE

CE	BW	WW	YW	MILK	MCE	MWWT
7.9	3.5	77.4	112.4	26.0	4.2	64.6

CALVING EASE: The ease with which a bull's calves are born to first calf heifers. A first calf heifer is defined as a female calving for the first time at 33 months of age or less. EPDs are reported as the standardized rank of the animal in the Canadian Simmental population. When comparing calving ease EPDs of two sires, the larger EPD indicates a higher percent of unassisted births for calves sired by this bull.

BIRTH WEIGHT: Calf weight at birth adjusted to a mature dam equivalent. Expected progeny performance is reported in pounds. The EPD value predicts the difference in average birth weight of a bull's calves, compared to calves of all other bulls evaluated. When comparing the birth weight EPDs of two sires, the larger EPD indicates a heavier average birth weight for calves sired by this bull.

WEANING WEIGHT: Calf weight taken between 160 and 250 days of age and adjusted to 205 days of age and a mature dam equivalent. Expected progeny performance is reported in pounds. The EPD value predicts the difference in average 205 day weight of an animal's calves compared to calves of all other animals evaluated. When comparing the weaning weight EPDs of two sires, the larger EPD indicates a heavier average weaning weight for calves sired by this bull.

YEARLING WEIGHT: Weight taken between 330 and 440 days of age and adjusted to 365 days of age and a mature dam equivalent. Expected progeny performance is reported in pounds. The EPD value predicts the difference in average 365 day weight of an animal's progeny, compared to the progeny of all animals evaluated. When comparing the weaning weight EPDs of two sires, the larger EPD indicates a heavier average yearling weight for calves sired by this bull.

MATERNAL CALVING EASE: The ease with which a sire's daughters calve as first calf heifers. A first calf heifer is defined as a female calving for the first time at 33 months of age or less. Expected progeny differences are reported as the standardized rank of the animal in the Canadian Simmental population. When comparing the maternal calving ease EPDs of two sires, the larger EPD indicates a higher percentage of unassisted births for calves born to this sire's daughters.

MATERNAL WEANING WEIGHT: The weaning weight of an animal's daughters' calves. Expected progeny performance is reported in pounds. The EPD value predicts the difference in average 205 day weight of an animal's daughters' calves compared to calves from daughters of all other animals evaluated. The evaluated reflects both the maternal ability of an animal's daughters and the growth potential of their calves. When comparing maternal weaning weight EPDs of two sires, the larger maternal weaning weight EPD indicates heavier weights due to daughters' ability to produce heavier calves.

**Win a \$2000
sale credit!**

Purchase a bull from any Saskatchewan member, and when the registration papers are transferred, your name is entered to win a \$2000 sale credit. The draw will be made at the SSA's annual general meeting in July and the lucky winner will have one year to use the credit at any public or private sales on bulls or females purchased from any SSA member.

TERMS: The terms of sale are cash or cheque. All cattle must be settled for at the conclusion of the auction. Cattle will not be released from the sale premises until payment is received in full, unless other arrangements have been made prior to the sale with the individual contributor. Every animal sells to the highest bidder, in the case of disputes, the auctioneer's decision will be final, and becomes the risk of the purchaser. We reserve the right to withhold animals from shipment for whom payments have not been received prior to departure times.

BUYERS REGISTRATION: Buyers please register for a buyer number at the office prior to purchasing.

BREEDING GUARANTEE: All bulls are guaranteed to be fertile and reproductively sound in accordance with the rules and regulations recommended by the breed associations. All bulls will be semen tested.

ANNOUNCEMENTS: Errors in this catalogue will be corrected by announcements from the block at sale time and such announcements will take precedent over any printed material. Any disputes will be settled by the auctioneer.

ACCIDENTS: Although every precaution will be taken, all persons who attend the sale do so at their own risk. The owners, management, the sales staff assume no liability, legal, or otherwise for any reason.

CERTIFICATE OF REGISTRATION: A certificate of registration duly transferred will be furnished to the buyer by the breeder for each registered animal after complete and full payment has been made.

INSURANCE: Bulls who go back to the seller's farm must be insured by the buyer, insurance agents will be in attendance.

You have to admire this polled bull. He is pretty good. Has a good mom. He has some great bloodlines in his pedigree with Radium, Bronson and Adonis. He has a good profile. He carries himself proudly around the pen. When he matures he should be a spitting image of his sire. His mom had lots of milk.
