*18th Annual Bull Sale*

**MARCH 19, 2022 AT 1:00 PM**  
**NORTHERN LIVESTOCK SALES**  
**LLOYDMINSTER SK**

Welcome to my 18th Annual Bull Sale. A very special thank you to all my customers, bidders, and future customers. You are greatly appreciated.

This is a real good group of bulls. Diluter tests will be done by sale. And homo polled test on 3J. Bulls are double vaccinated for foot rot with Fusogard. If you cannot make it sale day, DLMS is available. Or talk to Brian, Ryan or Jim.

If you have any questions, call me. Stop by farm for a visit and view the bulls.

Again, thank you to my customers. Your support is greatly appreciated. Looking forward to 2022.

The bulls that show unregistered. Will be registered by sale. The lab lost tailhairs in the move. New tailhairs have been sent. Welcome AM Sunrise, Adrian & Michelle Bomok. Good Charolais bulls. And welcome heifer consignors. A good group of heifers.

**Richard Kulyk**

Kulyk Simmentals

## CANADIAN SIMMENTAL ASSOCIATION BREED AVERAGE

CE	BW	WW	YW	MILK	MCE	MWWT
7.2	3.7	75.9	111.7	28.3	4.0	66.2

**CALVING EASE:** The ease with which a bull's calves are born to first calf heifers. A first calf heifer is defined as a female calving for the first time at 33 months of age or less. EPDs are reported as the standardized rank of the animal in the Canadian Simmental population. When comparing calving ease EPDs of two sires, the larger EPD indicates a higher percent of unassisted births for calves sired by this bull.

**BIRTH WEIGHT:** Calf weight at birth adjusted to a mature dam equivalent. Expected progeny performance is reported in pounds. The EPD value predicts the difference in average birth weight of a bull's calves, compared to calves of all other bulls evaluated. When comparing the birth weight EPDs of two sires, the larger EPD indicates a heavier average birth weight for calves sired by this bull.

**WEANING WEIGHT:** Calf weight taken between 160 and 250 days of age and adjusted to 205 days of age and a mature dam equivalent. Expected progeny performance is reported in pounds. The EPD value predicts the difference in average 205 day weight of an animal's calves compared to calves of all other animals evaluated. When comparing the weaning weight EPDs of two sires, the larger EPD indicates a heavier average weaning weight for calves sired by this bull.

**YEARLING WEIGHT:** Weight taken between 330 and 440 days of age and adjusted to 365 days of age and a mature dam equivalent. Expected progeny performance is reported in pounds. The EPD value predicts the difference in average 365 day weight of an animal's progeny, compared to the progeny of all animals evaluated. When comparing the weaning weight EPDs of two sires, the larger EPD indicates a heavier average yearling weight for calves sired by this bull.

**MATERNAL CALVING EASE:** The ease with which a sire's daughters calve as first calf heifers. A first calf heifer is defined as a female calving for the first time at 33 months of age or less. Expected progeny differences are reported as the standardized rank of the animal in the Canadian Simmental population. When comparing the maternal calving ease EPDs of two sires, the larger EPD indicates a higher percentage of unassisted births for calves born to this sire's daughters.

**MATERNAL WEANING WEIGHT:** The weaning weight of an animal's daughters' calves. Expected progeny performance is reported in pounds. The EPD value predicts the difference in average 205 day weight of an animal's daughters' calves compared to calves from daughters of all other animals evaluated. The evaluated reflects both the maternal ability of an animal's daughters and the growth potential of their calves. When comparing maternal weaning weight EPDs of two sires, the larger maternal weaning weight EPD indicates heavier weights due to daughters' ability to produce heavier calves.

CATALOGUE ONLINE AT: **WWW.CATTLEPICS.COM**

VIDEOS ONLINE AT: **WWW.DLMS.CA**

**Win a \$2000 sale credit!**

Purchase a bull from any Saskatchewan member, and when the registration papers are transferred, your name is entered to win a \$2000 sale credit. The draw will be made at the SSA's annual general meeting in July and the lucky winner will have one year to use the credit at any public or private sales on bulls or females purchased from any SSA member.

**TERMS:** The terms of sale are cash or cheque. All cattle must be settled for at the conclusion of the auction. Cattle will not be released from the sale premises until payment is received in full, unless other arrangements have been made prior to the sale with the individual contributor. Every animal sells to the highest bidder, in the case of disputes, the auctioneer's decision will be final, and becomes the risk of the purchaser. We reserve the right to withhold animals from shipment for whom payments have not been received prior to departure times.

**BUYERS REGISTRATION:** Buyers please register for a buyer number at the office prior to purchasing.

**BREEDING GUARANTEE:** All bulls are guaranteed to be fertile and reproductively sound in accordance with the rules and regulations recommended by the breed associations. All bulls will be semen tested.

**ANNOUNCEMENTS:** Errors in this catalogue will be corrected by announcements from the block at sale time and such announcements will take precedent over any printed material. Any disputes will be settled by the auctioneer.

**ACCIDENTS:** Although every precaution will be taken, all persons who attend the sale do so at their own risk. The owners, management, the sales staff assume no liability, legal, or otherwise for any reason.

**CERTIFICATE OF REGISTRATION:** A certificate of registration duly transferred will be furnished to the buyer by the breeder for each registered animal after complete and full payment has been made.

**INSURANCE:** Bulls who go back to the seller's farm must be insured by the buyer, insurance agents will be in attendance.

One of my favourites. Dark red, almost black-haired, stout, wide topped, moves good. His dam has lots of milk. Always brings home a good calf. A cow you wish you had more heifers out of to raise these type of bulls. This will be a good herd bull. Full Fleckvieh. He will be one to look at.

Special thanks to Brian Mardy for renting me 33C when I had 2 bulls go down at breeding. His calves are all stamped the same. Hair-coats are important to me. Lots of hair is good to have these last few winters. A good bull off a young productive cow.

Another good bull off a good long-bodied C cow. Who has lots of milk. A nice udder and teats. A bull that will sire good calves with a good pedigree.

Another good blood red, lots of hair, red to the hoof, wide topped, soggy bull. Off a very good young productive cow. Serious consideration needs to be given to this bull. He's pretty good.

Another good bull from 84Z and his mom 11B. She has lots of milk. Feb 27 born and weaned at 888 pounds. He will add milk and pounds to your commercial calves. We always need more pounds as we don't seem to be getting paid more for our cattle.

Pretty good weaning weight on this bull born March 2 his mom is becoming a good honest producer. With a good supply of milk. He's starting to get long bodied like his sire. He has a nice hair coat and nice to look at.
